

CLASSIC SQUARE

HOSPITALITY USE

Engineered Low-Profile Linkage - Keeps all metal parts below the mattress line.

Double-Locking TV Headrest (optional) - Provides added comfort while lounging or watching TV by raising the upper body. To reduce field failures, the headrest also restricts the unit from being cycled while in the “up” position.

Body-Support Tube and Wires - Enhance support in the body section to eliminate sagging. The cross tube keeps the unit square and enhances unit strength.

Contoured Seat Section - Offers a wider seating area by allowing seating close to the arm.

Seat Support Wires - Provides support while sleeping, plus adds durability to the overall unit.

All-Square Tubular Heavy-Duty Construction - Provides a strong and visually appealing look with improved safety (eliminated pinch points) and comfort in the seated position.

Pro-Deck™ - Two-ply ballistic decking material enhances durability and visual appeal.

Dual One-Piece Round Tubular Legs - Provides enhanced stability and strength, allowing the unit to be operated from the center or side position.

Anti-Tilt - A necessary safety feature, keeping the unit in contact with the floor at all times in the open position.

Warranty - 3 Years
